Connecting Your Life.

At MTCC we know that life is all about connecting with people and those connections are just as important to us as they are to you. Through our many great products and services, we strive to provide you with the best connections to the world around you. Through our Fiber-to-the-Home network, we can provide you with some of the fastest Internet connections in the state, and provide high-quality, great-looking High Definition TV, as well as many other services.

Great customer service is also something we pride ourselves on. Our mission is to give our customers the best customer service possible. We understand your connections are important to you, and so we have it made it our goal to provide fast, friendly, professional customer service and try to resolve any issue you may have the first time we visit.

If you're not already taking advantage of our great services, we invite you to sign up today! Come Home to MTCC.

Refer-A-Friend today!

Referral Program

Want to get a discount on your TV or Internet bill?

Don't forget about our incredible Referral Program! All you have to do is refer someone to MTCC. If that person signs up for services and tells us you referred them, you will **get a one month credit** on your bill! It's that easy!

Refer as many people as you like! You will get a credit for each person who signs up and mentions your name. So start talking!

Refer someone today and save money now!

Pharos Smart Home is Here!

Is Home Security Important to you?

If it is, then we have great news for you! Pharos Smart Home is now available at MTCC!

What is Pharos Smart Home?

Pharos Smart Home is a home automation service that gives you total control of your house, even when you aren't there! Pharos Smart Home products include door and window sensors, cameras, motion detectors, thermostats, moisture sensors, alarm sirens, smoke detectors, door locks and more.

All of these devices can be set up to respond in different ways. You can monitor and control your home remotely, receive event-triggered alerts and emails, allow access to your home or business at your discretion, and much more.

For example, you can set up a Pharos Smart Home door lock to turn lights on or off when it is unlocked, receive an email letting you know a door or window sensor has been triggered, or unlock a door and send an email alert when a safety alert pendant is activated. The possibilities are endless and easy to customize.

If home security is important to you, let us show you how Pharos Smart Home is right for you. Come visit our Manti office and check out our interactive demo room today!

Symmetrical Internet

People have changed the way they are using the Internet. With the popularity of streaming video, online gaming, cloud storage and file sharing, people are uploading more than they ever have before. With traditional asymmetrical Internet, that meant that it took you longer to upload information than it did to download that same information.

We are proud to say that we are the **first and only Internet provider** in Sanpete County today to offer Symmetrical Internet to our residential customers! Now your upload speed can match that of your download speed at a fantastic price! For just \$10 more per month, you can make any of our Internet packages symmetrical!

Who would benefit from **Symmetrical Internet**? Chances are you would! If you use any of the following programs or apps you would benefit from going Symmetrical: Facebook, YouTube, Instagram, Vimeo, Skype, DropBox, Google Drive, Online Gaming, File Sharing programs, Cloud File Storage, Remote Printing Services, Smart Home or Home Security apps, and more!

With our **Symmetrical Internet** you would be able to upload pictures, videos, and files much faster than before, have less lag in your online gaming experience, and have smoother video calls with Skype! All for just \$10 more per month! If you haven't already signed up for Symmetrical Internet, call us today!

Have you gone Symmetrical yet?

sym·met·ri·cal

/sə'metrik(ə)/

adjective

Made up of exactly similar parts facing each other or around an axis: showing symmetry.

noun

Totally awesome internet from Manti Telecommunications!

Ephraim Clean-Up Continues

If you live in Ephraim, you may have noticed our crew out and about working on the telephone poles in the middle of the blocks. We are currently working on cleaning up all of the old telephone lines that are no longer being used or that have been replaced by the newer Fiber Optic lines.

The new Fiber lines give us the ability to bring more bandwidth to your home than the older copper lines, which allows us to offer faster internet speeds, high quality HDTV, and many more exciting services.

So if you happen to catch one of us in your yard, don't panic! We are just here to clean up the older, unnecessary lines and to make things look a little nicer!

Not how our wires look!

Devices Challenge

Most people today don't realize how many devices in their homes are connected to the internet. Recent reports claim that the average number of internet-connected devices is 5 per home. That would include computers, laptops, tablets, smartphones, gaming consoles, and any other device that can connect to the web.

With all those devices fighting for internet bandwidth, it is no wonder that some of the slower internet speeds still being offered today just aren't fast enough to meet your needs. That is why we are proud to offer our Fiber-to-the-home Internet services with speeds anywhere from 10Mbps to 1Gbps.

How many Internet devices are in your home?

Starting on March 1, we invite you to take our Devices Challenge to see how many Internet-connected devices are in your home. We will have a survey posted on our Facebook page, as well as a printed version available at our Manti office. The Devices Challenge will run until Friday, March 11th.

As a bonus to those who participate in the Devices Challenge, we will be offering a chance to get a free 1-month upgrade. Watch our Facebook page starting on March 1st for more details!

<https://www.facebook.com/mantitelecommunications/>

How many devices do you have?

TV On My Side

At MTCC we strive to give our customers the best possible experience for the best rates we can offer. What many people don't realize is that it is the TV networks themselves that are often the cause of rate increases. As a TV provider, the networks charge us a per-subscriber rate that we must pay in order to carry their channels. When these rates go up, our cost per channel goes up and we are forced to pass that on to our customers in many cases. To see how some of the negotiations with the networks are handled, you can visit vonmyside.com. It is a very informative site that gives you information on how we fight to keep our rates as low as possible.

Watch TV Everywhere!

Watch TV Everywhere is a great FREE service that we currently offer to our TV subscribers. It allows you to watch some of your favorite channels on your PC, Laptop, Tablets, and Smartphones and can be accessed anywhere you have an Internet connection! And best of all...it's FREE!

We currently offer 72 Channels through Watch TV Everywhere including CNN, Fox News, ESPN, NFL, Pac-12, Syfy, USA, Starz, Encore and many more (we just recently added TVLand and the Weather Channel)! With most of these networks, you can access live TV or view previous episodes that you may have missed.

To Register for Watch TV Everywhere, simply follow these steps.

1. Contact us at 435.835.3391 to get your account number.
2. Go to www.watchtveverywhere.com.
3. Choose MTCC in the Provider list.
4. Click on 'Register' at the top of the page.
5. Follow the on-screen prompts from there.

Once you have registered, you can also download the individual apps for each network you want to watch on your tablet and smartphone. This allows for quicker access to you favorite content. If you have any questions or need help registering, please let us know!

March Madness is Coming!

March Madness begins on March 15th with the play-in games and will continue into April for the Championship Game.

As a bonus to our Watch TV Everywhere subscribers, you will be able to watch every game of March Madness basketball LIVE through Watch TV Everywhere. Just sign in and look for the NCAA March Madness (or download the March Madness app) and you're set!

Keep track of scores throughout the tournament, watch highlights, or sign in and watch all the games LIVE. Let the Madness begin!

Join Our New ConnecTxt Program!

We are excited to introduce our newest way of keeping in touch with our customers! ConnecTxt is a new program we are launching that allows us to send alerts via text message directly to our customers. We can send out network status updates (if our services go down for any reason), promotions, special events, contests and more right to your cell phone!

If you would like join our new ConnecTxt program, all you have to do is text **joinmtcc** to **28748** on your cell phone. Once you send the text you will be added to our database and should receive a text message back from us welcoming you to the program. It's that easy!

Standard text rates may apply.

Watch TV Everywhere...It's FREE!!

Website Easter Egg Hunt!

Happy Easter!

That's right! Easter is in March this year...Sunday, March 27th to be exact. To help get everyone warmed up for the big Easter egg hunts that weekend, we are excited to roll out our first Website Easter Egg Hunt starting on Monday, March 21st.

What is a Website Easter Egg Hunt you ask? Once the hunt begins, we will be hiding an image of a colorful Easter egg somewhere on our website. The challenge is for you to find where we hide the egg on the website each day. Once you have found the egg, click on it and you will be taken to a page that has a question about our website. Answer each question correctly and you will be entered into a drawing for some yummy treats from Candies on Main and other great prizes!

The Website Easter Egg Hunt will run from March 21 through March 25. All entries must be submitted by Tuesday, March 29th (no later than 5pm). Winners will be announced by Friday, April 1st.

So get your Egg hunting skills warmed up and be sure to check out our website for this year's Website Easter Egg Hunt!

Presidents Day Challenge a Success!

Thank you for participating!

In February, we took over KZ's Soda Shack in Manti and held a President's Day Challenge, asking people who came through the drive-thru trivia questions about some of our previous Presidents.

Some of the answers you gave us were pretty funny, but some of you guys really know your stuff! For those of who participated and answered questions correctly, we were happy to buy your drinks for you. We had a lot of fun and hope you did too!

If you haven't seen the video of our President's Day Challenge yet, make sure to check it out on our Facebook page!

Daylight Savings

It's time to Spring Forward!

Daylight Savings is on Sunday, March 13th. Don't forget to set your clocks ahead one hour!

Despite common misconceptions, Benjamin Franklin did *not* actually propose Daylight Savings Time. It was first suggested by New Zealand entomologist George Hudson in 1895 and later by English builder William Willett, among others.

In the United States, DST was used during both World Wars as a way to save coal and energy, but was not standardized until 1966. It was later extended another four to five weeks in 2007.
