Symmetrical Internet

People have changed the way they are using the Internet. With the popularity of streaming video, online gaming, cloud storage and file sharing, people are uploading more than they ever have before. With traditional asymmetrical Internet, it took you longer to upload information than it did to download that same information.

We are proud to say that we are the **first and only Internet provider** in Sanpete County today to offer Symmetrical Internet to our residential customers! Now your upload speed can match your download speed at a fantastic price! For just \$10 more per month, you can make any of our Internet packages symmetrical!

With our **Symmetrical Internet**, you can upload pictures, videos, and files much faster than before, have less lag in your online gaming experience, and have smoother video calls with Skype! All for just \$10 more per month! If you haven't already signed up for Symmetrical Internet, call us today!

USE PROMO CODE: SYMNEWSLETTER and get 2 months of Symmetrical Internet for the price of 1! (a \$10 value, not available in all areas)
