Thanks Moms! We Love You!

## Happy Mother's Day!!

**We love and appreciate our Moms and all they do for us!**

Mother's Day is on Sunday, May 8<sup>th</sup>.

To celebrate the occasion, we will be having some Mother's Day fun on our Facebook page. During the week prior to Mother's Day (May 2-7), we will be posting old pictures of our employees' Moms. Be sure to check out our Facebook page every day and see if you can guess who the Mom of the day belongs to!

The modern American holiday of Mother's Day was first celebrated in 1908, when Anna Jarvis held a memorial for her mother at St. Andrew's Methodist Church in Grafton, West Virginia. Her campaign to make "Mother's Day" a recognized holiday in the United States began in 1905, the year her mother, Ann Reeves Jarvis, died. Anna Jarvis wanted to honor her mother by continuing the work she started and to set aside a day to honor all mothers, because she believed that they were "the person who has done more for you than anyone in the world".

In 1908, the US Congress rejected a proposal to make Mother's Day an official holiday, joking that they would have to proclaim also a "Mother-in-law's Day". However, owing to the efforts of Anna Jarvis, by 1911 all US states observed the holiday, with some of them officially recognizing Mother's Day as a local holiday, the first being West Virginia, Jarvis' home state, in 1910. In 1914, Woodrow Wilson signed a proclamation designating Mother's Day, held on the second Sunday in May, as a national holiday to honor mothers.

## Website Easter Egg Hunt Winners...

**Joanne Offen and Lisa Estey!**

Congratulations to the winners of our first ever Website Easter Egg Hunt!

During the week prior to Easter we hid 5 Easter eggs on our website and challenged our customers to go and find them! We had a lot of people participate and most of the eggs were found. Once they found the eggs, they had to click on them and answer a question to get entered into the drawing.

Joanne and Lisa both won a \$10 gift certificate to KZ's Soda Shack. Congrats!

## Pharos Smart Home

### Is Home Security Important to you?

If it is, then we have great news for you! Pharos Smart Home is now available at MTCC!

### What is Pharos Smart Home?

Pharos Smart Home is a home automation service that gives you total control of your house, even when you aren't there! Pharos Smart Home products include door and window sensors, cameras, motion detectors, thermostats, moisture sensors, alarm sirens, smoke detectors, door locks and more.

All of these devices can be set up to respond in different ways. You can monitor and control your home remotely, receive event-triggered alerts and emails, allow access to your home or business at your discretion, and much more.

For example, you can set up a Pharos Smart Home door lock to turn lights on or off when it is unlocked, receive an email letting you know a door or window sensor has been triggered, or unlock a door and send a text alert when a safety alert pendant is activated. The possibilities are endless and easy to customize.

If home security is important to you, let us show you how Pharos Smart Home is right for you. Come visit our Manti office and check out our interactive demo room today!

*Refer-A-Friend today!*

## Referral Program

### Want to get a discount on your TV or Internet bill?

Don't forget about our incredible Referral Program! All you have to do is refer someone to MTCC. If that person signs up for services and tells us you referred them, you will **get a one month credit** on your bill! It's that easy!

Refer as many people as you like! You will get a credit for each person who signs up and mentions your name. So start talking!

Refer someone today and save money now!

## Breakaway Wireless

### Unlimited Talk & Text now available at Breakaway Wireless!

At Breakaway Wireless, our goal is to give you the best cell phone service we can at competitive prices. We offer some of the most popular phones on the market such as the Samsung Galaxy G6, Motorola MotoE, and others. We also offer nationwide wide coverage through our partnerships with RINA and other carriers.

Starting at just \$45 per month, you can enjoy unlimited talk and text from Breakaway Wireless. If you haven't checked out Breakaway Wireless yet, we invite you to stop by and let us show you what we have to offer.

## Free Wi-Fi Coming to Rat Fink!

### Free Wi-Fi is once again coming to the 2016 Rat Fink Reunion!

Last year, MTCC launched Free Wi-Fi for the Rat Fink Reunion, both at the Manti City Park and at the Rat Fink Museum on 300 North in Manti. It was a smashing success as we had over 800 devices connect to and use the Free Wi-Fi last year.

This year, we are again providing Free Wi-Fi at both locations but we are adding a twist. Rat Fink brings a lot of people to Manti and Sanpete County each year, and we want to help drive some of that traffic into the local businesses here in Manti, Ephraim, and Sterling.

To accomplish this, we have made a few changes to our Free Wi-Fi program. First and foremost, the visitors will still have a free Wi-Fi option at both locations. However, the free trial will only last for 15 minutes at a time and will be at slower speeds. If someone wants all-day access and faster speeds, all they need to do is visit one of our local sponsors, buy something, and pick up an Upgrade Voucher with a code on it that will enable the all-day version of the Free Wi-Fi.

Our hope with this program is that it will help some of our local businesses benefit from the Rat Fink Reunion by driving customers into their stores to get the Upgrade Vouchers. If you have a business and would like to become a sponsor for the Rat Fink event, please contact us at 435-835-2929.

## Symmetrical Internet

People have changed the way they are using the Internet. With the popularity of streaming video, online gaming, cloud storage and file sharing, people are uploading more than they ever have before. With traditional asymmetrical Internet, that meant that it took you longer to upload information than it did to download that same information.

We are proud to say that we are the **first and only Internet provider** in Sanpete County today to offer Symmetrical Internet to our residential customers! Now your upload speed can match that of your download speed at a fantastic price! For just \$10 more per month, you can make any of our Internet packages symmetrical!

Who would benefit from **Symmetrical Internet**? Chances are you would! If you use any of the following programs or apps you would benefit from going Symmetrical: Facebook, YouTube, Instagram, Vimeo, Skype, DropBox, Google Drive, Online Gaming, File Sharing programs, Cloud File Storage, Remote Printing Services, Smart Home or Home Security apps, and more!

With our **Symmetrical Internet** you would be able to upload pictures, videos, and files much faster than before, have less lag in your online gaming experience, and have smoother video calls with Skype! All for just \$10 more per month! If you haven't already signed up for Symmetrical Internet, call us today!

Have you gone Symmetrical yet?

sym·met·ri·cal

/sə'metrik(ə)l/

adjective

Made up of exactly similar parts facing each other or around an axis: showing symmetry.

noun

*Totally awesome internet from Manti Telecommunications!*

## Watch TV Everywhere!

Watch TV Everywhere is a great **FREE** service that we currently offer to our TV subscribers. It allows you to watch some of your favorite channels on your PC, Laptop, Tablets, and Smartphones and can be accessed anywhere you have an Internet connection! And best of all...it's **FREE!**

We currently offer **72 Channels** through Watch TV Everywhere including CNN, Fox News, ESPN, NFL, Pac-12, Syfy, USA, Starz, Encore and many more (we just recently added TVLand and the Weather Channel)! With most of these networks, you can access live TV or view previous episodes that you may have missed.

**To Register for Watch TV Everywhere, simply follow these steps.**

1. Contact us at 435.835.3391 to get your account number.
2. Go to [www.watchtveverywhere.com](http://www.watchtveverywhere.com).
3. Choose MTCC in the Provider list.
4. Click on 'Register' at the top of the page.
5. Follow the on-screen prompts from there.

Once you have registered, you can also download the individual apps for each network you want to watch on your tablet and smartphone. This allows for quicker access to you favorite content. If you have any questions or need help registering, please let us know!

## Google Who?

Everyone has heard of Google Fiber, right?

It's funny how people seem to get all star struck and googly-eyed (pun-intended) at the mention of their name. Their world revolves around Google Fiber with the hope that someday it will come to their town just so they can say "Yes, I have Google Fiber!"

What you may not know is that MTCC has been deploying and using the same **Fiber-to-the-Home** technology as Google since 2006! In fact, if you live in Manti, Ephraim, or Sterling and have services with us, chances are you are already on our **Fiber-to-the-Home** network!

Using the same technology and equipment as Google Fiber, we are able to provide a dedicated direct line from our office to your house, preventing the slow-down that you can get from the shared node type of system that some other companies use. With our **Fiber-to-the-Home** network, Manti Telecommunications can provide up to a 1 Gbps service to a customer's house or business. Now that's fast!

So the next time someone asks if you have Google Fiber...you can now proudly say "Nope, I get my Fiber from MTCC!"

\*Google and Google Fiber are registered trademarks of Google, Inc. All rights reserved.

Watch TV Everywhere...It's FREE!

## Memorial Day

**Memorial Day is on Monday, May 30<sup>th</sup>. Our offices will be closed.**

We would like to take time to remember all of the men and women who have died in the service of our country. Without them, our lives would not be the same today. We owe an infinite debt to the men and women of our Armed Forces who have protected the freedoms we have today. Thank you for your service.

## Ephraim Clean-Up Continues

If you live in Ephraim, you may have noticed our crew out and about working on the telephone poles in the middle of the blocks. We are currently working on cleaning up all of the old telephone lines that are no longer being used or that have been replaced by our newer Fiber Optic lines.

The new Fiber lines give us the ability to bring more bandwidth to your home than the older copper lines, which allows us to offer faster internet speeds, high quality HDTV, crystal clear phone service and many more exciting services.

So if you happen to catch one of us in your yard, don't panic! We are just there to clean up the older, unnecessary lines and to make things look a little nicer!

## Join Our New ConneCtxt Program!

We are excited to introduce our newest way of keeping in touch with our customers! ConneCtxt is a new program we are launching that allows us to send alerts via text message directly to our customers. We can send out network status updates (if our services go down for any reason), promotions, special events, contests and more right to your cell phone!

If you would like join our new ConneCtxt program, all you have to do is text **joinmtcc** to **28748** on your cell phone. Once you send the text you will be added to our database and should receive a text message back from us welcoming you to the program. It's that easy!

Standard text rates may apply.

## TV On My Side

At MTCC we strive to give our customers the best possible experience for the best rates we can offer. What many people don't realize is that it is the TV networks themselves that are often the cause of rate increases. As a TV provider, the networks charge us a per-subscriber rate that we must pay in order to carry their channels. When these rates go up, our cost per channel goes up and we are forced to pass that on to our customers in many cases. To see how some of the negotiations with the networks are handled, you can visit [tvonmyside.com](http://tvonmyside.com). It is a very informative site that gives you information on how we fight to keep our rates as low as possible.

Always Remember

## Connecting Your Life.

At MTCC we know that life is all about connecting with people and those connections are just as important to us as they are to you. Through our many great products and services, we strive to provide you with the best connections to the world around you. Through our Fiber-to-the-Home network, we can provide you with some of the fastest Internet connections in the state, and provide high-quality, great-looking High Definition TV, as well as many other services.

Great customer service is also something we pride ourselves on. Our mission is to give our customers the best customer service possible. We understand your connections are important to you, and so we have it made it our goal to provide fast, friendly, professional customer service and try to resolve any issue you may have the first time we visit.

If you're not already taking advantage of our great services, we invite you to sign up today! Come Home to MTCC.

Connecting Your Life.

## Coming in June...
