Manti Telecommunications 34 W. Union Manti, UT 84642

## WHAT SPEED DO I NEED?

For the best streaming experience, most of the popular streaming apps are recommending a minimum of **25 Mbps per stream**. If you are streaming these apps on more than one device at time, your bandwidth requirements will increase accordingly.

For most customers, we recommend a minimum of:

# 75-100 Mbps.

\*While these apps will work at slower speeds, your experience will be less than ideal. Disney+, Hulu, Netflix, Amazon Prime, and Apple TV logos are registered trademarks of their respective companies and are not affiliated with MTCC. All rights reserved.

## FAMILYUP

When your family comes to visit, does your internet slow down? All those extra devices chew up your bandwidth in a hurry, making your internet sluggish.

Give your internet a boost with **FamilyUp** and make everyone happy! **FamilyUp** plans temporarily increase your internet speed while your family is here, then go back to normal when they leave.

Now everyone will love coming to your house even more!

Get a 5-Day **FamilyUp** boost for just

# \$10

 per tier jump!

\*All FamilyUp plans are for 5 days. Prices are in addition to your normal bill. Speeds reflect a temporary upgrade and will automatically be reduced to your normal plan after the 5-day period is over. Not available in all areas.
