Connecting Your Life.

At MTCC we know that life is all about connecting with people and those connections are just as important to us as they are to you. Through our many great products and services, we strive to provide you with the best connections to the world around you. Through our Fiber-to-the-Home network, we can provide you with some of the fastest Internet connections in the state, and provide high-quality, great-looking High Definition TV, as well as many other services.

Great customer service is also something we pride ourselves on. Our mission is to give our customers the best customer service possible. We understand your connections are important to you, and so we have it made it our goal to provide fast, friendly, professional customer service and try to resolve any issue you may have the first time we visit.

If you're not already taking advantage of our great services, we invite you to sign up today! Come Home to MTCC.

Refer-A-Friend today!

Referral Program

Want to get a discount on your TV or Internet bill?

Don't forget about our incredible Referral Program! All you have to do is refer someone to MTCC. If that person signs up for services and tells us you referred them, you will **get a one month credit** on your bill! It's that easy!

Refer as many people as you like! You will get a credit for each person who signs up and mentions your name. So start talking!

Refer someone today and save money now!

Watch TV Everywhere!

Watch TV Everywhere...It's FREE!!

Watch TV Everywhere is a great **FREE** service that we currently offer to our TV subscribers. It allows you to watch some of your favorite channels on your PC, Laptop, Tablets, and Smartphones and can be accessed anywhere you have an Internet connection! And best of all...it's **FREE!**

We currently offer **72 Channels** through Watch TV Everywhere including CNN, Fox News, ESPN, NFL, Pac-12, SyFy, USA, Starz, Encore and many more (we just recently added TVLand and the Weather Channel)! With most of these networks, you can access live TV or view previous episodes that you may have missed.

To Register for Watch TV Everywhere, simply follow these steps.

1. Contact us at 435.835.3391 to get your account number.
2. Go to www.watchtveverywhere.com.
3. Choose MTCC in the Provider list.
4. Click on 'Register' at the top of the page.
5. Follow the on-screen prompts from there.

Once you have registered, you can also download the individual apps for each network you want to watch on your tablet and smartphone. This allows for quicker access to you favorite content. If you have any questions or need help registering, please let us know!

March Madness is here!

As a bonus to our Watch TV Everywhere subscribers, you will be able to watch every game of March Madness basketball LIVE through Watch TV Everywhere. Just sign in and look for the NCAA March Madness logo (or download the March Madness app) and you're set!

Keep track of scores throughout the tournament, watch highlights, or sign in and watch all the games LIVE. Let the Madness begin! The Final Four teams play on April 2nd, and the National Finals is on April 4th. Be sure to tune in!

Ephraim Clean-Up Continues

Not how our wires look!

If you live in Ephraim, you may have noticed our crew out and about working on the telephone poles in the middle of the blocks. We are currently working on cleaning up all of the old telephone lines that are no longer being used or that have been replaced by the newer Fiber Optic lines.

The new Fiber lines give us the ability to bring more bandwidth to your home than the older copper lines, which allows us to offer faster internet speeds, high quality HDTV, crystal clear phone service and many more exciting services.

So if you happen to catch one of us in your yard, don't panic! We are just there to clean up the older, unnecessary lines and to make things look a little nicer!

Breakaway Wireless

Unlimited Talk & Text now available at Breakaway Wireless!

At Breakaway Wireless, our goal is to give you the best cell phone service we can at competitive prices. We offer some of the most popular phones on the market such as the Samsung Galaxy G6, Motorola MotoX, and others. We also offer nationwide wide coverage through our partnerships with RINA and other carriers.

Starting at just \$45 per month, you can enjoy unlimited talk and text from Breakaway Wireless. If you haven't checked out Breakaway Wireless yet, we invite you to stop by and let us show what we have to offer.

Google Who?

Everyone has heard of Google Fiber, right?

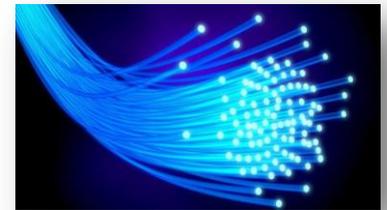

It's funny how people seem to get all googly-eyed and star struck at the mention of their name. Their world revolves around Google Fiber with the hope that someday it will come to their town just so they can say "Yes, I have Google Fiber!"

What you may not know is that MTCC has been deploying and using the same **Fiber-to-the-Home** technology as Google since 2006! In fact, if you live in Manti, Ephraim, or Sterling and have services with us, chances are you are already on our **Fiber-to-the-Home** network!

Using the same technology and equipment as Google Fiber, we are able to provide a dedicated direct line from our office to your house, preventing the slow-down that you can get from the shared node type of system that some other companies use. With our **Fiber-to-the-Home** network, Manti Telecommunications can provide up to a 1 Gbps service to a customer's house or business. Now that's fast!

So the next time someone asks if you have Google Fiber...you can now proudly say "Nope, I get my Fiber from MTCC!"

*Google and Google Fiber are registered trademarks of Google, Inc. All rights reserved.

TV On My Side

At MTCC we strive to give our customers the best possible experience for the best rates we can offer. What many people don't realize is that it is the TV networks themselves that are often the cause of rate increases. As a TV provider, the networks charge us a per-subscriber rate that we must pay in order to carry their channels. When these rates go up, our cost per channel goes up and we are forced to pass that on to our customers in many cases. To see how some of the negotiations with the networks are handled, you can visit tvonmyside.com. It is a very informative site that gives you information on how we fight to keep our rates as low as possible.

Pharos Smart Home Can Save Lives!

You may have read in the paper recently that our own Dallas Cox and his family had a very scary close call with carbon monoxide poisoning. Everyone in their house woke up feeling light-headed and sick. At first, they just thought they had all caught the flu bug or something else, but as the morning went on, they started feeling worse and worse until they finally decided to get out of the house and go to the hospital. It turns out they had all been exposed to very high levels of carbon monoxide in their home.

Even though Dallas had carbon monoxide detectors in the house, they either didn't go off, or sounded just like a fire alarm which they disregarded as a false alarm since there was no fire to be seen. When a lot of people hear the words "Smart Home" they immediately think of geeks that love to be connected in every way to everything in their lives. But in reality, we have access to products through **Pharos Smart Home** that can keep you safe...and even save your life.

With a Carbon Monoxide Detector/Fire Alarm combo from **Pharos Smart Home**, you can set up rules to have the system text you or someone else to let them know that carbon monoxide has been detected in the house. One of the things Dallas learned from his experience is that people get "loopy" when carbon monoxide is involved. They might need a little help in not only realizing that they might be experiencing carbon monoxide poisoning...but they also might need a little help getting out of the house. If Dallas had a carbon monoxide detector from **Pharos** installed in his house, he could have set it up to notify his neighbors, friends, or nearby family members of the carbon monoxide detection and they could have helped get everyone out of the house sooner.

If you haven't checked out our **Pharos Smart Home** products, we encourage you to do so...it might just save your life.

Search and Rescue Fundraiser

Support the Sanpete Search & Rescue Team...Get Lost!

It's that time of year again. Sanpete County Search and Rescue and KMTI AM 650 will be teaming up once again to take over the air waves in Sanpete County for the day. April 1, 2016 will be on a Friday this year.

As with every other year, they will have Coke products and clothing for sale. This fundraiser is the only one of the year, and lets them buy and maintain their vital equipment so they can save lives!

We at MTCC are proud supporters of the Sanpete County Search and Rescue Team and encourage all of our family, friends, and customers to donate to this great cause if you have the means.

Symmetrical Internet

People have changed the way they are using the Internet. With the popularity of streaming video, online gaming, cloud storage and file sharing, people are uploading more than they ever have before. With traditional asymmetrical Internet, that meant that it took you longer to upload information than it did to download that same information.

We are proud to say that we are the **first and only Internet provider** in Sanpete County today to offer Symmetrical Internet to our residential customers! Now your upload speed can match that of your download speed at a fantastic price! For just \$10 more per month, you can make any of our Internet packages symmetrical!

Who would benefit from **Symmetrical Internet**? Chances are you would! If you use any of the following programs or apps you would benefit from going Symmetrical: Facebook, YouTube, Instagram, Vimeo, Skype, DropBox, Google Drive, Online Gaming, File Sharing programs, Cloud File Storage, Remote Printing Services, Smart Home or Home Security apps, and more!

With our **Symmetrical Internet** you would be able to upload pictures, videos, and files much faster than before, have less lag in your online gaming experience, and have smoother video calls with Skype! All for just \$10 more per month! If you haven't already signed up for Symmetrical Internet, call us today!

Have you gone Symmetrical yet?

Dirk's Cooking Classes

Need an idea for dinner? Looking for something different to eat?

Tune in to Correnti's Cooking show to learn how to make some delicious meals. Correnti's Cooking show is now airing Thursday nights at 7pm on Channel 3 and HD800. If you would like to attend one of these classes in person, please contact Dirk Correnti at Correnti's Kitchen Essentials in Manti.

Dirk's Kitchen Essentials: 435.835.3151

sym·met·ri·cal

/sə'metrik(ə)l/

adjective

Made up of exactly similar parts facing each other or around an axis: showing symmetry.

noun

Totally awesome internet from Manti Telecommunications!
