Sanpete County Fair

Free Wi-Fi is coming to the Fair!

We are working on launching our Free Wi-Fi program at the County Fair this year! We are hoping to be able to cover the Rodeo grounds, the vendor area, and some of the car show area as well.

This will be similar to the Free Wi-Fi we offered at the Rat Fink™ Reunion and the Mormon Miracle Pageant earlier this year, and will feature a voucher program sponsored by several of the local businesses here in Manti and Ephraim.

If you would like to use the Free Wi-Fi while at the Fair, all you will need to do is visit one of our sponsors and pick up your Wi-Fi Voucher. Enter the information on the voucher into your mobile device and off you go!

For a complete list of our Free Wi-Fi sponsors, please visit our website at www.manti.com/wifi-event.

Watch for our Olympic-themed float!

While you are at the Fair, be sure not to miss our Olympic-themed float in this year's Mammoth Parade! It features some of MTCC's finest athletes and is sure to get a few laughs out of the crowd. We will be throwing out candy and having a lot of fun!

TV On My Side

At MTCC we strive to give our customers the best possible experience for the best rates we can offer. What many people don't realize is that it is the TV networks themselves that are often the cause of rate increases. As a TV provider, the networks charge us a per-subscriber rate that we must pay in order to carry their channels. When these rates go up, our cost per channel goes up and we are forced to pass that on to our customers in many cases. To see how some of the negotiations with the networks are handled, you can visit vonmyside.com. It is a very informative site that gives you information on how we fight to keep our rates as low as possible.

 The logo for TVonmyside.com features the word "TV" in a white, rounded font inside a blue rounded square, followed by "onmyside.com" in a blue, sans-serif font.

Fiber-to-the-Home

Everyone has heard of Google™ Fiber, right?

It's funny how people seem to get all star struck and googly-eyed (pun-intended) at the mention of their name. Their world revolves around Google™ Fiber with the hope that someday it will come to their town just so they can say "Yes, I have Google™ Fiber!"

What you may not know is that MTCC has been deploying and using the same **Fiber-to-the-Home** technology as Google™ since 2006! In fact, if you live in Manti, Ephraim, or Sterling and have services with us, chances are you are already on our **Fiber-to-the-Home** network!

Using the same technology and equipment as Google™ Fiber, we are able to provide a dedicated direct line from our office to your house, preventing the slow-down that you can get from the shared node type of system that some other companies use. With our **Fiber-to-the-Home** network, Manti Telecommunications can provide up to a 1 Gbps service to a customer's house or business. Now that's fast!

So the next time someone asks if you have Google™ Fiber...you can now proudly say "Nope, I get my Fiber from MTCC!"

Saturdays Hours

Did you know we have someone working on Saturdays?

It's true! Even though our front office is closed on Saturdays, we do have a technician working from 8am to 5pm every Saturday! If you need assistance on a Saturday, all you need to do is call our office at 435.835.3391 and leave a message. Please be sure to leave your name, a contact phone number, address, and the details of your question. Our Saturday technician will check messages throughout the day and contact you as soon as they can!

If you need assistance during non-working hours, we recommend posting a message on our Facebook page so our employees will be alerted to your question. Thanks!

Symmetrical Internet

People have changed the way they are using the Internet. With the popularity of streaming video, online gaming, cloud storage and file sharing, people are uploading more than they ever have before. With traditional asymmetrical Internet, that meant that it took you longer to upload information than it did to download that same information.

We are proud to say that we are the **first and only Internet provider** in Sanpete County today to offer Symmetrical Internet to our residential customers! Now your upload speed can match that of your download speed at a fantastic price! For just \$10 more per month, you can make any of our Internet packages symmetrical!

With our **Symmetrical Internet** you would be able to upload pictures, videos, and files much faster than before, have less lag in your online gaming experience, and have smoother video calls with Skype! All for just \$10 more per month! If you haven't already signed up for Symmetrical Internet, call us today!

Have you gone Symmetrical yet?

Referral Program

Want to get a discount on your TV or Internet bill?

Don't forget about our incredible Referral Program! All you have to do is refer someone to MTCC. If that person signs up for services and tells us you referred them, you will **get a one month credit*** on your bill! It's that easy! Refer someone today and save money now!

*Credit will be equal to the value of services the referred person signs up for, excluding telephone services and taxes.
