- 7 Answer: How Many Devices

## Happy New Year!

### 2017 is already here! Can you believe it?

Last year seemed to go by at the blink of eye for us. We accomplished many great and positive things in 2016, and are now looking forward to yet another great year in 2017.

We have many exciting things planned for the coming year. We have already announced the expansion of our Internet service to include faster speeds of up to 1 Gbps. We are also excited to now be including the cost of a phone (excluding taxes) with all internet speeds of 50 Mbps or higher! Some of the other things we have planned include: adding more crystal clear HD channels to our channel lineup, adding new exciting shows to Channel 3, and expanding our Halo Fixed Wireless Internet into areas of Mt. Pleasant, Wales, and other towns. We also have some fun interactive events and great promos in the works. All exciting stuff!

We would also like to take the opportunity to thank you all for another great year! Our customers are the reason we are here. We appreciate your business and we look forward to serving you in the coming New Year!

## New HD TV for Christmas?

### Did you get a new HDTV for Christmas?

*Does it not look as good as it did on display in the store?*

Store displays are designed and optimized to look absolutely stunning under the conditions of the store environment they are displayed in. They adjust settings such as brightness and color to make it "pop", and they display all of the content in High Definition to show the best possible picture quality they can.

### Did you know that HDTVs require HD channels to actually be HDTVs?

Buying an HDTV without signing up for HD channels is like buying a fancy new sports car and only driving 30 mph. It's like installing a new swimming pool and never filling it with water. Or turning the oven on and never putting any food in to get cooked. Without HD channels an HDTV is just a regular old TV.

Get the most out of your new HDTV by signing up for our amazing HD channel lineup. It's only an extra \$10 per month on top of your existing TV bill, and worth every penny! Come check out our side-by-side comparison in our demo room.

**USE PROMO CODE: HDNEWSLETTER to get 2 months of HD for the price of 1!!!!**

**Our offices will be CLOSED  
Monday, January 2nd.**

## We've Gone Gig...Have You?

### 1 Gbps Internet Download Speeds Now Available!

We are proud to announce the launch of our new high speed Internet packages, including our **1 Gbps service!** That's right...we've gone Gig!

Internet users are finding the need for faster and faster internet speeds. Whether it is for online gaming, streaming high definition movies, video conferencing, or an increasing number of internet devices in their home, our customers have started demanding higher speeds. To answer this demand, we now offer the following packages:

We've Gone Gig!

Price	Download Speed	Upload Speed
\$249.95	1 Gbps	300 Mbps
\$149.95	500 Mbps	100 Mbps
\$119.95	200 Mbps	50 Mbps
\$89.95	100 Mbps	15 Mbps
\$69.95	50 Mbps	10 Mbps
\$49.95	20 Mbps	5 Mbps
\$39.95	10 Mbps	3 Mbps

### Phone is now included with Internet speeds of 50 Mbps or higher!

We've heard you! You want our Fiber-to-the-Home Internet service, but you don't want to pay for a phone line...we get it! And now we are excited to announce that we are including the cost of a phone line in our Internet packages of 50 Mbps or higher! That means you can get our 50 Mbps Internet package with a phone for only \$69.95 plus taxes!

Sign up today!

\*Speeds not available in all areas. Some restrictions may apply.

Phone line now included with 50 Mbps or higher!

## Give the Gift of Pharos Smart Home

### Need a gift idea for your Valentine?

We all know that Valentine's Day is coming soon and it's the perfect chance to get that gift your loved one really wanted for Christmas but didn't get...Pharos Smart Home!

### What is Pharos Smart Home?

Pharos Smart Home is a home automation service that gives you total control of your house, even when you aren't there! Pharos Smart Home products include door and window sensors, cameras, motion detectors, thermostats, moisture sensors, alarm sirens, smoke detectors, door locks and more.

All of these devices can be set up to respond in different ways. You can monitor and control your home remotely, receive event-triggered alerts and emails, allow access to your home or business at your discretion, and much more.

So this Valentine's Day, give the gift of security...the gift that truly keeps on giving. Come visit our Manti office and check out our interactive demo room today!

## How Many Internet Devices Can You Find?

SO...we all know that in this day and age...internet is everything...well, almost everything. The advancement of technology creates a greater demand for more and more internet. Did you know that the more devices that require internet that you have in your home effects your internet speed? Each device uses a certain amount of internet. As more and more devices are in the home and using the internet it requires more and more internet to keep things working the way that you intend them to work. Below is a picture with devices that use the internet. Take a minute to circle all of the devices that you can see that uses the internet. You might be surprised to see that you may have many, if not all of these devices in your home.

## Referral Program

**Want to get a discount on your TV or Internet bill?**

Don't forget about our incredible Referral Program! All you have to do is refer someone to MTCC. If that person signs up for services and tells us you referred them, you will **get a one-month credit\*** on your bill! It's that easy!

Refer someone today and save money now!

*\*Credit will be equal to the value of services the referred person signs up for, excluding telephone services and taxes.*

## *MHS Sports Live on Channel 3*

We wanted to thank all of you who have supported us this past year and we look forward to an exciting new year!

### **JV Basketball games?**

Basketball season continues in Jan and Feb and we will continue to live stream the boys home basketball games. For the past few seasons we have lived streamed both the JV and varsity games. However, we are considering live streaming just the varsity games. If you watch the live stream of the JV games and would like us to continue to stream these games, let us know by calling us at 435-835-3456 or emailing us at [ch3productions@manti.com](mailto:ch3productions@manti.com).

### **Would you like to see the girls home basketball games live?**

We have asked this before, but if we get enough people interested we could possibly live stream the girls' home basketball games as well this season. If you would be interested in watching the girls basketball home games live please contact us here at Channel 3 Productions via email at [ch3productions@manti.com](mailto:ch3productions@manti.com) or call us at 835-3456. You can also contact the MTCC/MTC main office and let them know you would be interested as well.

Please follow our Facebook page for updates on which games will be streamed live.

## *Star in Your Own Show!*

### **Have you always wanted to be on TV?**

We are looking for new content to show on Channel 3 and HD 800. If you have an idea for a TV show you would like to make and have shown on our local channels then let us know!

We are interested in comedies, documentaries, instructional do-it-yourself shows, news programs and more! All shows would need to be family friendly with no violence or inappropriate subject matter. Channel 3 reserves the right to refuse shows that we deem as inappropriate.

The shows would need to be mostly produced and filmed by you, but if you would like help in making the show let us know and we might be able to work something out. So if you are the creative sort and want to be on TV, let us know! We want to put you and your ideas on Channel 3!

Email us the details about the show to [ch3productions@manti.com](mailto:ch3productions@manti.com).

## *Modeling Opportunities*

### **Are you aspiring to be a model or an actor?**

We are looking for local talent to be a part of our print advertisements and video commercial campaigns. If you are looking for modeling or acting experience or want to build your portfolio, please contact us at 435-835-3456 or email [ch3productions@manti.com](mailto:ch3productions@manti.com).

*\*All modeling and acting work is voluntary and requires model release form.*

*Strike a pose!*

## *Movies on Demand with Starz App!*

Did you know that as a Starz subscriber you have FREE access to the Starz app? That means that you can download or stream any of the full length movies and shows on Starz and watch them whenever you want! All you need to do is register for Watch TV Everywhere and then download the Starz app on any device!

Watch TV Everywhere is a great **FREE** service that we currently offer to our TV subscribers. It allows you to watch some of your favorite channels on your PC, Laptop, Tablets, and Smartphones and can be accessed anywhere you have an Internet connection! And best of all...it's **FREE!**

**To Register for Watch TV Everywhere, simply follow these steps.**

1. Contact us at 435.835.3391 to get your account number.
2. Go to [www.watchtveverywhere.com](http://www.watchtveverywhere.com).
3. Choose MTCC in the Provider list.
4. Click on 'Register' at the top of the page.
5. Follow the on-screen prompts from there.
6. Once you have registered, you will be sent a confirmation email. Open the email and click on the Activation link to complete the registration process and activate your account.
7. Once activated you can login to your newly created account and access the channels that are available in the package you subscribe to.
8. Download and install the Starz app on any internet connected device, login, and watch your favorite movies and shows!

If you have any questions or need help registering, please let us know!

## *Symmetrical Internet*

People have changed the way they are using the Internet. With the popularity of streaming video, online gaming, cloud storage and file sharing, people are uploading more than they ever have before. With traditional asymmetrical Internet, it took you longer to upload information than it did to download that same information.

We are proud to say that we are the **first and only Internet provider** in Sanpete County today to offer Symmetrical Internet to our residential customers! Now your upload speed can match your download speed at a fantastic price! For just \$10 more per month, you can make any of our Internet packages symmetrical!

With our **Symmetrical Internet** you would be able to upload pictures, videos, and files much faster than before, have less lag in your online gaming experience, and have smoother video calls with Skype! All for just \$10 more per month! If you haven't already signed up for Symmetrical Internet, call us today!

**Have you gone Symmetrical yet?**

Movies on Demand

Go Symmetrical!

## Keep in Contact with Us!

Besides this newsletter, we have several ways for you to stay in contact with us and keep up-to-date on what we are doing. Find out what promotions we are running, what events are coming up, and much more through the following venues.

### ConnectTxt

We are excited to introduce our newest way of keeping in touch with our customers! **ConnectTxt** is a new program that allows us to send alerts via text message directly to your cell phone. Through ConnectTxt, we can send:

- Promotions
- Special Event Information
- Contests
- Product Offerings
- Network Status Updates (If our services go down unexpectedly)
- And More!

**ConnectTxt** is a totally voluntary program and you can opt out at any time. We expect to send out 2-3 alerts every month (not counting any Network Status Updates). Standard text rates may apply.

If you would like to join our **ConnectTxt** program, all you have to do is text **joinmtcc** to **28748** on your cell phone. Once you send the text you will be added to our database and should receive a text message back from us welcoming you to the program. It's that easy!

### Social Media

Facebook and other social media sites are a great way to keep up to date and in touch with MTCC and our customers. If you haven't checked us out on social media, give us a look! You can find us at the following:

## Security Alert: Netgear Routers

### Attention NETGEAR router users!

According to this article some Netgear routers have a major security issue. If you own one of the affected models (R6250, R6400, R6700, R7000, R7100LG, R7300, R7900, R8000), we recommend checking Netgear's tech support page for a patch or simply not using your router (plug the internet directly into your PC or laptop). The latter will disable any other wired or wireless devices connected to your router. As an alternative, you can also look at buying a new router.

Read the article here:

<https://www.wired.com/2016/12/ton-popular-netgear-routers-exposed-no-easy-fix/>

## Answer: How Many Internet Devices?

- 1-Smart TV--yep, it has apps and those apps use the internet.
- 2-Speaker--not all speakers use it but if you have heard of Sonos and others--yep, those speakers use the internet.
- 3-Blu-Ray Player--yep, it uses it.
- 4-Game Console--There isn't a modern game console out there that doesn't use internet now.
- 5-Tablet--of course it uses it.
- 6-Portable Game Console--Yep---uses internet.
- 7-Smart Phone--Uh--yeah it uses it--that's where it gets it's "smart" from.
- 8-Outlet--home automation outlets let you control your outlets using computers, phones, etc.
- 9-Smart Thermostats--again, that's where they get their "smarts" from--you can control them through the internet also.
- 10-Light Switch--yep--home automation light switches use the internet too.
- 11-Computer--Um...if you didn't know that computers use the internet well then.....
- 12-Laptop Computer--Ditto from above.
- 13-Smart Watch--get's it's "smarts" from smart phones and internet.
- 14-Door Lock--Home automation locks allow you to open/close them with internet devices.

Wow...look at all of the devices that use up the internet. There are a lot more than that out there also. Refrigerators, streaming devices such as Roku and Chrome Cast, washing machines, and even treadmills connect to the internet also. That's why at MTCC we offer internet speeds of up to a 1 GIG!! That means that we have the speeds to meet your needs!! If your internet is running a little slow lately, go ahead and count up all of the devices that you have that connect to the internet. You will probably be surprised at how many there are. The more devices, the more internet you will need.
