Know the Facts

TV Rates

In the next few months we will be evaluating our contracts with our existing TV networks to determine how much our costs will go up due to annual per-subscriber rate increases.

Unfortunately, for us to continue to carry our existing channels, we will need to increase our TV rates as well.

We understand that these rate increases may cause some of our existing TV subscribers to consider other options.

Streaming options such as Disney+, Netflix, Hulu, and others are becoming more and more popular.

If you are considering switching to or adding one or more of these streaming options, we recommend increasing your internet speed to 50 Mbps or higher to ensure the best possible streaming experience.

Please call our office with any questions you may have.

Thank you!
